Question	Answer
1. What is NTPC?	NTPC Limited is India's largest integrated power generation company, primarily engaged in electricity generation and related energy businesses.
2. What does NTPC stand for?	NTPC originally stood for National Thermal Power Corporation. The company is now officially known as NTPC Limited.
3. When was NTPC established?	NTPC was established in 1975 by the Government of India.
4. Where is the headquarters of NTPC?	NTPC's headquarters is located in New Delhi, India.
5. What is the main objective of NTPC?	NTPC aims to generate reliable, affordable, and sustainable electricity while supporting India's energy security.

Question	Answer
6. What is PMI?	PMI stands for Project Management Institute. It is a globally recognized organization that develops project management standards and certifications.
7. What is project management?	Project management is the process of planning, executing, monitoring, and completing a project within scope, time, and budget.
8. What are the phases of a project?	A project generally includes initiation, planning, execution, monitoring and controlling, and closure.
9. What is a project schedule?	A project schedule is a timeline that defines project activities, milestones, and deadlines.
10. What is a milestone?	A milestone is a significant event or checkpoint used to measure project progress.
11. What is procurement?	Procurement is the process of purchasing goods, services, or works required for a project.
12. What is a tender?	A tender is an invitation for suppliers or contractors to submit bids for providing goods or services.
13. Why is safety important in projects?	Safety helps prevent accidents, protects employees, and ensures compliance with safety regulations.
14. What is quality assurance?	Quality assurance ensures that project processes follow established standards to deliver quality outcomes.
15. What is quality control?	Quality control involves inspecting and testing deliverables to ensure they meet required specifications.
16. What is risk management?	Risk management is the process of identifying, assessing, and reducing risks that may affect a project.
17. What is a project report?	A project report provides information about project progress, performance, issues, and achievements.
18. What is document management?	Document management is the organized storage, maintenance, and retrieval of project-related documents.
19. Why is digital transformation important for NTPC?	Digital technologies help improve operational efficiency, data-driven decision-making, and overall productivity.
20. How can an AI chatbot help in NTPC?	An AI chatbot can quickly answer employee questions, search documents, provide project information, and reduce manual effort.

NTPC Limited, a Maharatna company of Government of India, is India's largest energy conglomerate with an installed capacity of more than **90,000+ MW** (including ~30,000 MW through JVs/Subsidiaries). NTPC Limited is instrumental in promoting NTPC Education and Research Society (NEARS). Under the aegis of NEARS, NTPC School of Business (NSB) was set up in the year 2014 with the aim to nurture human capital for the entire energy sector.

NTPC School of Business (NSB) has two AICTE approved programmes, namely, **Post Graduate Diploma in Management – Executive (PGDM-E)** and **Post Graduate Diploma in Energy Management (PGDM-EM)**. These courses are designed to enrich management learning and practice at all levels of decision making in the area of energy management. The focus on **energy management** consolidates to deliver knowledge and value-added academic and research enrichment services for sustainable development of the Indian economy

1. Introduction

NTPC Limited (National Thermal Power Corporation Limited) is India's largest integrated power company. It is a Central Public Sector Enterprise (CPSE) under the Ministry of Power, Government of India.

- **Founded:** 7 November 1975
- **Headquarters:** New Delhi, India
- **Ownership:** Government of India
- **Industry:** Power Generation
- **Chairman & Managing Director:** (Current as per latest official appointment)
- **Listed on:** NSE and BSE

NTPC generates electricity through thermal, hydro, solar, wind, nuclear, and green hydrogen projects.

2. History of NTPC

1975

- NTPC was established by the Government of India.
- Objective: Accelerate India's power generation capacity.

1980s

- Construction of India's first super thermal power stations.
- Projects like Singrauli and Korba became operational.

1990s

- NTPC became India's largest thermal power producer.
- Introduced modern power plant technologies.

2004

- Company was listed on the Indian stock exchanges.

2010–2020

- Diversified into:
 - Solar Power
 - Wind Energy
 - Hydro Power
 - Power Trading
 - Coal Mining

2020 onwards

- Focus shifted towards:
 - Renewable Energy
 - Green Hydrogen
 - Energy Storage
 - Carbon Neutrality
 - Electric Mobility

3. Business Segments

NTPC operates in:

- Thermal Power
- Solar Energy
- Wind Energy
- Hydro Power

- Coal Mining
 - Power Trading
 - Green Hydrogen
 - Battery Storage
 - Nuclear Power (through joint ventures)
-

4. Installed Capacity

NTPC has one of the largest installed generation capacities in India.

Power sources include:

- Coal
- Gas
- Hydro
- Solar
- Wind

The company aims to significantly increase its renewable energy portfolio over the coming years.

5. Major Thermal Power Stations

Some important NTPC plants are:

- Singrauli
- Korba
- Vindhyachal
- Ramagundam
- Talcher Kaniha
- Sipat
- Dadri
- Farakka
- Rihand
- Kahalgaon
- Simhadri
- Barh

- Mouda
 - Lara
-

6. Renewable Energy Projects

NTPC is rapidly expanding renewable energy through:

- Solar Parks
 - Floating Solar Plants
 - Wind Farms
 - Hybrid Solar-Wind Projects
 - Battery Energy Storage Systems (BESS)
-

7. Green Energy Initiatives

NTPC Green Energy focuses on:

- Green Hydrogen
 - Green Ammonia
 - Green Methanol
 - Renewable Energy Parks
 - Carbon Capture Technologies
 - Hydrogen Mobility
-

8. Upcoming Projects

Major focus areas include:

Renewable Capacity Expansion

- Large-scale solar parks
- Wind energy projects
- Hybrid renewable projects

Green Hydrogen Mission

- Green hydrogen production plants
- Hydrogen blending
- Hydrogen fuel stations

Pumped Storage Projects

- Grid-scale energy storage
- Renewable integration

Battery Storage Systems

- Utility-scale batteries
- Smart grid support

Nuclear Energy

- Expansion through joint ventures with Nuclear Power Corporation of India Limited (NPCIL)

Smart Energy Solutions

- Digital power plants
 - AI-based predictive maintenance
 - Smart transmission technologies
-

9. Sustainability Goals

NTPC aims to:

- Increase renewable energy generation.
 - Reduce carbon emissions.
 - Improve energy efficiency.
 - Achieve net-zero emissions target by 2070.
 - Promote clean and sustainable energy.
-

10. Research & Innovation

NTPC invests in:

- Artificial Intelligence
 - Machine Learning
 - Robotics
 - Drone Inspection
 - Digital Twin Technology
 - Smart Maintenance
 - IoT-based Monitoring
-

11. CSR Activities

Major CSR initiatives include:

- Education
 - Healthcare
 - Skill Development
 - Rural Development
 - Women's Empowerment
 - Water Conservation
 - Environmental Protection
-

12. Awards & Recognition

NTPC has received numerous awards for:

- Operational Excellence
 - Environmental Management
 - Corporate Governance
 - Safety Standards
 - Digital Transformation
 - Sustainability Practices
-

13. Future Vision

NTPC plans to become a diversified energy company by:

- Expanding renewable energy capacity.
 - Investing in green hydrogen.
 - Increasing energy storage infrastructure.
 - Modernizing existing thermal plants.
 - Supporting India's energy transition and energy security.
-
